No.1 Manufacturer of Premium Packaging Products.

ABOUT US

Hotpack Packaging Industries is one of the global leaders manufacturing, marketing, and distributing a wide range of food and beverage packaging and related products. We serve our products and services to a variety of industries including Food service, Hospitality, Retail, Healthcare, E-Commerce, Pharma, Airline etc.

Established in Dubai, United Arab Emirates in 1995, Hotpack offers its extensive product range around the globe with its vast network of manufacturing facilities and distribution centers spread across Middle East, Far East and UK. With a product range of over 4000 products, we are proud that our efforts help reduce food waste, provide customer with much needed peace of mind that the packaging we offer help prevent any possibility of food contamination, and that each customer is a green ambassador contributing to the sustainability drive we initiated – where over 96% of our products are either biodegradable, compostable, recyclable or re-usable. With branches all over Middle East, UK, USA, Europe, Australia, Morocco, India, Malaysia and distribution network covering over 100 countries and counting, we offer the assurance to count on us to deliver our quality products all over the globe. We keep our mission, vision and values the core principles of our operations, and Hotpack is on course to achieve our established vision to be recognized as a global brand leader in food packaging by 2030.

We possess all major international quality accreditations and audits - ISO, BRCGS, USFDA, Sedex, FSC, PEFC, and ESMA certifications. Moreover, Hotpack is the proud winner of Dubai Quality Award, which forms the hallmark of our quality standards.

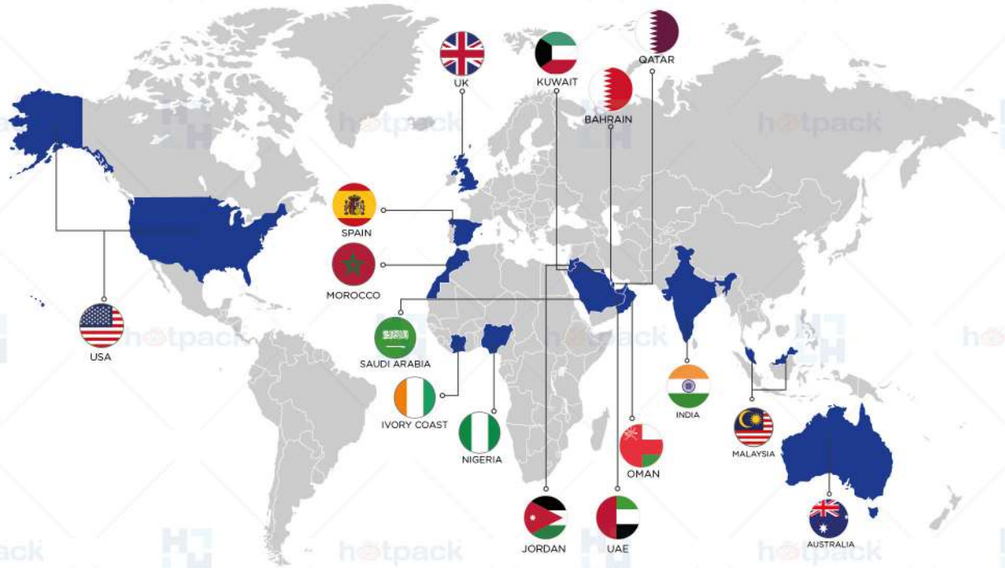

Hotpack is managed by a team of dedicated, highly qualified, and experienced professionals. It has adopted policies aimed at developing and enriching the potential of each of its employees who serve the business ethically and with passion.

Hotpack keeps innovation and advanced technology at the core of its business approach, and production execution is fully automated in all its plants. The company follows Industry 4.0 standards and steadily pushing boundaries for full sustainability and circular economy.

PAPER CUPS

Hotpack's paper cups are a great choice for serving hot and cold beverages in cafes, restaurants, and events. Our paper cups are made of high-quality materials that are strong and durable, ensuring they don't leak or collapse. We offer a wide range of paper cups in different sizes, colors, and designs, providing a variety of options to suit any occasion. Our paper cups are eco-friendly and recyclable, making them an ideal choice for businesses that care about the environment. With customized designs and logos, Hotpack's paper cups can help promote your brand and create a lasting impression on your customers.

Nowadays, the trend of green consumption is becoming very popular in the world, with many people preferring to use wooden and paper eating utensils, the most prominent trend of using disposable wooden products. Wooden products have many advantages, which are both good for health and safe for the environment. However, to find a disposable wooden cutlery set that is beautiful, durable and affordable.

WOODEN PRODUCTS

Hotpack offers a range of wooden products, including cutlery, skewers, and toothpicks, made of sustainable and eco-friendly materials. They are perfect for use in restaurants, cafes, and catering events, providing a natural and rustic look to food presentation.

SALAD CONTAINERS

Introducing the PET Salad Container by Hotpack Packaging, the ultimate solution for maintaining the crispness and flavor of your salads. Our container features an airtight seal that preserves the freshness of your greens, toppings, and dressings until you're ready to indulge. With separate compartments for each ingredient, you can create a customized salad on the go, ensuring no more soggy croutons or wilted lettuce. Made from high-quality, BPA-free PET material, our containers are safe, durable, and microwave and dishwasher safe for your convenience. Plus, they are fully recyclable, allowing you to make an eco-friendly choice without compromising on quality. Upgrade your lunch routine and enjoy the joy of a fresh and delicious salad anytime, anywhere with our PET Salad Container. Perfect for busy professionals, students, and anyone with an active lifestyle. Make your meals healthier, tastier, and more enjoyable with Hotpack Packaging's PET Salad Container.

HINGED
DELI CONTAINERS

From the deli counter to the bakery table and everything in between, our clear-hinged containers are perfect for salad bars, deli treats or fruit packing. With its one-piece hinged construction, the product offers a super water vapor barrier to ensure longer shelf life. These clamshell deli containers provide an added convenience to the customers allowing them to take out the culinary creations with them on the go!

TAMPER EVIDENT CONTAINERS

Hotpack's PET tamper-evident containers are perfect for packaging food items, such as salads, fruits, and other snacks in the foodservice industry. Our containers are made of high-quality materials, ensuring durability and a leak-proof performance. With its practical and convenient design, our containers provide a hygienic and safe solution for storing and transporting food items. Its tamper-evident feature ensures that the food remains secure and fresh until it reaches its destination.

CLING FILMS

Hotpack cling film offers excellent sticking properties and tight sealing preventing any air from getting in. Our cling films come in attractive dispenser boxes with cutting edge ensuring easy pull-out and cut open and are highly transparent without wrinkles, uneven thickness or bad odor. Available in retail packs and catering packs, and can be customized as per customer demand.

ALUMINIUM CONTAINERS

Hotpack produces aluminum containers in rectangular, square, round and oval shapes of various sizes and specifications. These stackable containers and platters resist grease and oil and seals the original flavor in them. Available with matching laminated lids. Multi-section containers and embossed platters are also available.

HAND WASH

Hotpack's hand wash is a must-have for maintaining hygiene in homes, workplaces, and public areas. Our hand wash contains natural ingredients that gently cleanse and moisturize the skin, leaving it soft and fresh. With refreshing fragrances like lavender, lemon, and oudh, Hotpack's hand wash is perfect for use in washrooms, kitchens, and other areas where hand hygiene is crucial. Our hand wash helps to prevent the spread of germs and bacteria, keeping you and your surroundings safe and healthy.

PROMO & SPECIAL OFFER LABELS

Looking for the right promotional sticker to attract attention to your product? Here, we have thousands of shapes and sizes to meet your needs and get your product noticed. These types of labels are also called "flash" labels or "price point" labels and are a great way to promote an offer or discount. We can supply your label in a single or multicolor version, matt or gloss material, permanent or removable adhesive to name just a few options. All of our labels can come with a generic message or individual prices or we can supply a printed master label which you can then overprint your messages/prices as you need them.

COMMITMENT TO **SUSTAINABLE PACKAGING**

With the current focus on the recyclability of material and sustainability of resources, the packaging industry worldwide is rapidly engaging in eco-friendly measures. Sustainable packaging is becoming, more than ever before, a higher priority for all the stakeholders: brand owners, converters and consumers.

Hotpack Packaging Industries LLC, Dubai, U.A.E leads the initiative in the region by offering custom-made, completely recyclable packaging products for diverse flexible packaging applications. With latest European machines, modern production techniques, ESKO digital prepress processing and a lab equipped with all the key analytical tools, Hotpack offers its expert services in custom-designing a packaging that supports sustainability while running efficiently on machines and meeting all the end-use performance parameters.

CORRUGATED CARTONS

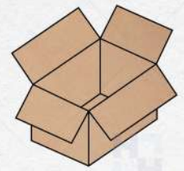

Hotpack is a leading manufacturer of corrugated carton boxes located in DIP-2, Dubai, United Arab Emirates. Our state-of-the-art infrastructure includes a 220,000 square feet plant manned by a team of highly skilled and professional staff, equipped with the latest production facilities.

Our company caters to the needs of all types of corrugated boards and printed boxes for a wide range of leading manufacturers and distributors in the region. We serve major segments such as Foodstuff, Beverages, Mineral Water, Edible Oils, Ceramic Tiles, Garments, Cargo, Perfumes, Vegetables/Fruits, E-Commerce, and other sectors.

Hotpack Corrugated division is also equipped with an in-house laboratory with the latest testing equipment for testing papers and cartons. This guarantees that all of our products meet the highest quality standards before they are delivered to our customers. Moreover, our synergy with the Hotpack Group of Companies enables our customers to share all their packaging needs under one umbrella. Our ultimate goal is to improve our technology and provide rapid services to our customers, ensuring effective operational efficiency.

As a company, Hotpack is committed to providing outstanding products and services to its customers and maintaining a reputation of excellence in the industry.

REGULAR SLOTTED CARTON (RSC)

The Regular Slotted Carton RSC is the most common and economical box style to manufacture. All flaps of a RSC are the same length and meet at the center of the box.

FULL OVERLAP CARTON (FOL)

The Full Overlap Cartons FOL outer flaps overlap, which makes it unusually resistant to rough handling. The FOL box design enables it to be stacked on bottom panel the full flaps provide additional protection, thickness provides added Stacking Strength.

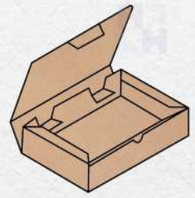

HALF SLOTTED CARTON

HSC are similar to RSC , but with one set of flaps. They are useful when an open container is desired, it can be used to create a telescopic box with top & bottom for packing fruits & agriculture sector.

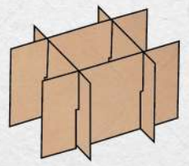

DIE CUT BOXES

These are usually customized carton that require angular, circular, or other unusual cuts, slot and scores. Die-cut carton may also feature perforated lines, ventilation hole, or access holes. Our die-cut carton can be printed in up to 4-colors.

MAILER STYLE BOXES

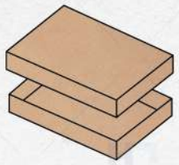

These are usually customized carton that require angular, circular, or other unusual cuts, slot and scores.Impress your customers with sturdy custom mailers. Popular packaging choice for eCommerce companies and subscription services.

PARTITIONS

Partitions and sheets provide a separate cell for each article in a box are used for additional protection on fragile items such as glass , bottles jars etc.

PRODUCT RANGE

FULL TELESCOPE DESIGN

The self-lock telescopic style boxes of top & bottom that fits each over are used for poultry & agricultural products.

2PLY ROLLS

This product is used for cushioning and covering fragile items, seperator and others.

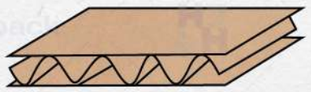

BOARD STYLE

SINGLE FACE BOARD

Sngle face board has only two layers, a liner layer and a corrugated layer. It's not as durable as the other type of corrugated cardboard but is often used inside of boxes to add extra cushioning.

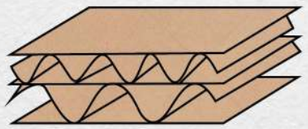

Order of Layers: Fluting, Liner
Uses: Interior Packaging

SINGLE WALL BOARD

Single wall board is the most common type of corrugated cardboard. If someone is talking about corrugated cardboard, they are most likely referring to this style. It consists of two outer liners and a middle layer of corrugated medium.

Order of Layers: Liner, Fluting, Liner
Uses: Shipping Cartons

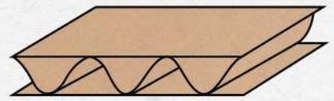

DOUBLE WALL BOARD

Double wall board has two layers of corrugated fluting and three liners, making it extremely durable.

Order of Layers: Liner, Fluting, Liner, Fluting, Liner
Uses: Industrial Cartons

FLUTE TYPE

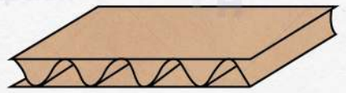

B FLUTE CARDBOARD

Type B cardboard has excellent crush and puncture resistance and is a great printing surface. This cardboard is commonly used for inner packaging components such as pads and partitions.

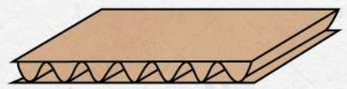

C FLUTE CARDBOARD

Type C cardboard makes a good printing surface. It also has compression properties and offers crush resistance. It is most commonly used for shipping boxes and to secure glass, furniture, food,etc.

E FLUTE CARDBOARD

Type E cardboard's thin construction helps to reduce storage spaces. It has excellent crush resistance and an exceptional printing surface. It is commonly used for displays, pizza boxes, ballot boxes and packaging of consumer goods such as glass, ceramics and cosmetics.

F FLUTE CARDBOARD

Type F cardboard has an outstanding printing surface and excellent crush resistance. Its thin construction allows for stiffer boxes with less fiber. It is commonly used in fast food clamshell containers and packaging for consumer goods such as cosmetics, jewelry and shoes.

MATERIAL SPECIFICATIONS

Kraft paper is manufactured from softwood trees. Due to the "virgin" fibres, it is both the strongest type of paper and also the easiest to print on. As a result, it is the most commonly used outside liner when selecting material to produce corrugated boxes and packaging.

TYPE OF KRAFT	COLOR
Virgin Kraft Liner	Brown
Kraft Liner	White
Semi Kraft Liner	Brown

MATERIAL SPECIFICATIONS

Test liner is actually a double-layered paper. Being recycled, it is one of the most environmentally friendly paper that is used for corrugated products.

TYPE OF RECYCLED PAPER	COLOR
Test Liner	Brown
Test Liner	White

Flute paper is the central layer in the corrugated board (cardboard). This provides protection by filling empty spaces in the outer case and acts as a wall for the strength of the product.

TYPE OF RECYCLED PAPER	COLOR
Fluting Liner	Brown
Semi Chemical Fluting	Brown

Hotpack CCF can respond to the needs of the customers through its papers of various weights and quality.
The expectations of customers that change through time are evaluated sensitively and research & development activities are performed in line with the demands of the customers.

KRAFT LINER APPLICATIONS	TEST LINER APPLICATIONS

DELIVERABLES

Hotpack is a leading corrugated company that specializes in the production of a wide range of corrugated boxes using B-Flute, C-Flute, E- Flute, and F-Flute as well as various combinations of flute such as E+C, and B+C. Our company offers flexography printing as per the customer-approved designs and artwork on boxes.

Hotpack ensures that its customers receive the best quality products and services. All our products are manufactured to the customer's requirements and comply with international standards.

PRODUCTION FACILITY

Hotpack operates a High-Speed Double Wall Corrugation line with an annual capacity of 24,000+ MT. In addition, we have a dedicated high-speed single wall line for 3 Ply, 2 Ply roll, and 2-ply sheets (B, E, and F Flute) with a capacity of 12,000 MT per year.

We manufacture a wide range of custom-made corrugated cartons in Single wall (3-Ply) and double wall (5-Ply) with different types of flute combinations such as F, E, B, C, E+C, and B+C. We are equipped with three fully automatic printing machines and flatbed die-cutting machines, which allows us to manufacture all types of printed RSC, HRSC, and die-cut boxes with up to 4 color printing facilities.

We act as a consultants to our dear customers by determining the needs with consideration and following quality combinations that the product will be used, strength to hold desired weight, climate condition it will be kept, and other factors for special demands.

With our experienced sales team, we help in achieving customer's interest with a wide range of products having different technical specifications.

HOUSE OF INNOVATION AND SUSTAINABILITY

As a responsible manufacturer of packaging materials, we have been ensuring that all our investments and offerings are having sustainability as our prime focus. We have been working towards providing solutions towards recyclability in the products that we produce. This has prompted us to invest in state of the art water-based coating lines and similar technology. We have taken the lead towards producing completely recyclable paper cups for both hot and cold applications. Our PET plant has been leading our initiative to provide Mono material to ensure complete recyclability in the PCR category.

Collaborations with a few of our customers have enabled us to change the specifications from non-recyclable to recyclable categories. Our team has been relentlessly working towards collaborating with our customers, government bodies and other stakeholders to push for sustainable packaging solutions. We also plan to have an agenda for PIR and PCR to champion the sustainability cause in the region.

Summary: Hotpack Eco Profile - 97% of our product range is either environmentally friendly, recyclable or both.

Only 2.8% of our product range are deemed neither recyclable or environmentally friendly. Polystyrene (PS) and Polyvinyl Chloride are imported only for specific customers and is not manufactured by Hotpack. Our mission is to provide suitable alternative Eco packaging products to allow complete removal of all PVC & PS products.
